

Danone

Hanoverian, Brown born 2000, 16.3 hands

The Champion Stallion of the 2003 Swedish approval is a capital movement king: beautiful to behold, a neck with an optimal arching form, ideal top line, long legs and correct conformation.

It is hard to surpass the relevance of his pedigree: The combination of De Niro with the noble blood of Weltmeyer-Absatz and Bolero guarantees prime dressage quality. His motions have to be called phenomenal. In all three basic gaits Danone is always in uphill motion with plenty of expression and action in the foreleg and a fantastic activity in the hind leg. His great ability for collection is visible in every step.

Danone won young horses dressage tests and was qualified to the German Young Horses Championships in 2006. He was finalist of the World Championships of Young Dressage Horses in Verden 2006 and now he is successful in dressage competitions at S level.

In 2009 Danone provided a premium stallion in Verden who sold for 320,000 Euros to Austria, the vice champion of Vechta, which sold for 130,000 Euros and in Westphalia a licensed stallion, auctioned for 60,000 Euros to Warendorf.

Licensed for: Hanoverian, Oldenburg, Rheinland, Westphalian , and Sweden
