

For Compliment

Rheinland, Bay, Born 2004 16.2 hands

Dynamic mover with a very special bloodline composition – rideability of 9.0

Stunning gaits combined with an exciting pedigree. In his 70 day performance test he scored 9.0 and more for his trot, canter (9.25) and rideability. With an aggregate score of 121.84 points and an individual dressage score of 128.63 he was ranked amongst the top stallions – making him an exceptional offer for the committed breeder of dressage horses.

Sire Fidermark was seen as one of the best dressage producers in Germany, but sadly he died much too early in 2003. Fidermark won his stallion test and the four year old National Young Horse Championships before continuing his remarkable success rate at Grand Prix level. The dam's sire Compliment brings the coveted Holstein gene into the blood line through Calypso II, who was well known for passing on striking movements. For Compliment offers a pedigree that is hard to find. He captivates ones attention with his willingness to work and his lovely temperament, which is reflected in his excellent walk: worth top scores. Outstanding elasticity and dynamic mechanics make him a prime quality dressage sire. We excitedly expect his first crop of foals in 2008.

Approved for Hanover, Rheinland, Westphalian and Oldenburg
