

Sandro Boy

Oldenburg, Bay, Born 1993 16.3 hands

Winner of many jumping Grand Prixs. He enthralled spectators at every outing with spectacular rounds

Sandro Boy's sire Sandro was very successful at international level with Franke Sloothaak and has dominantly passed on his ingenious jump and brilliant type to his progeny.

His dam's lineage through Grannus-Argentinus descends from the Westfalian Waldfee ground lineage and is known amongst the experts as the most popular combination of blood lines in the world. Dam Wiadora is the full-sister to the stallions "Grasco" and "Granius". Bred by Rudolf Meyer in Westeremstek, auctioned by Paul Schockemöhle at the Vechta foal auction and discovered by Josef Estendorfer at the Oldenburger Approvals and has been in his ownership ever since.

Sandro Boy was the only one to complete his 100 day test in Münster-Handorf with a dream score of 10.0 in loose jumping and won the jumping index with a total score of 145 points. He produced a premium stallion "Saccor" in Münster-Handorf already from his first year of foals and with "Sandro Boy Junior" and "Sandro Man de L" two further approved stallions. He also qualified two mares "Simone" and "Sabrina" for the German Young Horse Championships in Warendorf.
